

Grippaz® 
Patented Non-Slip Gloves

**The Best Gloves
You'll Ever Use**

Home of Grippaz Gloves

In 2015 we invented a product that changed glove technology forever. The Grippaz Glove range with its unique fish scale grip has been patented in over 50 countries worldwide and is worn by millions of people everyday offering unrivalled grip and protection over any other glove in its class.

Visit : www.grippaz.com for more information.

We Design and Innovate

We work closely with our customers to create and produce fit for nitrile gloves.

We hold patents in more than 50 countries worldwide.

Independently Tested

We are a member of SATRA.
We speak to the testing and
compliance technicians on
a daily basis to ensure our
products comply with
international requirements.

Quality Control / Quality Guarantee

Grippaz's team of Quality Control experts inspect every shipment before it leaves the factory. All manufacturers are ISO certified. Our inspectors are product specific and industry trained.

Features

Superb Grip, Dry or Wet

Regardless if your hands are covered in fats or oils our gloves will provide you phenomenal grip.

Chemical Resistant

Keeping your hands safe, when dealing with all manner of chemicals

Food Safe

Leaves the food smell and taste untainted

Features

Latex Free

Our gloves don't use fillers so you can relax knowing you'll be safe from a latex allergy.

Maximum Dexterity

Our gloves mould to your hand for a snug fit, to achieve the maximum level of dexterity according to CE standards.

Puncture Resistance

Increased resistance to provide you with better protection than other disposable gloves.

Testimonial

- Good Quality
- Superb Stretch
- This reduces costs. Grippaz Gloves can be wash and reused. By maintaining the original conditions process and the gloves are still like new.

— Indirect Procurement Supervisor —

Tough and works well in contact with animal fats. Can be worn throughout the shift without changing gloves.

— Production Worker —

Better grip than the gloves I previously used. Even in wet and slippery condition. Grippaz Last longer than any other Nitrile Gloves we had use.

— Chicken Packer —

Reduce Glove Cost By At Least 3 Times

The background of the slide is a photograph of a large landfill. In the foreground and middle ground, there are massive piles of garbage, including plastic bags, tires, and other debris. A yellow excavator is visible on a distant ridge of the landfill. To the right, a lush green forested hillside slopes down towards a green field. The sky is overcast and hazy. The text is overlaid in the center of the image.

**OVER 300 BILLION PIECES OF USED DISPOSABLE GLOVES END UP IN LANDFILLS
UP TO 90% LESS WASTE IF EVERYONE SWITCHED TO GRIPPАЗ GLOVES**
